Professional Education Program

BSCAI recognizes that your most important asset is your people. Without high-quality, well-trained leaders, your business cannot grow and will not survive in today's fast-paced, competitive environment. We are committed to helping you and your employees develop the skills and talents needed to be successful. That's why we have created the BSCAI Professional Education Program.

The Professional Education Program is designed to provide your company with a focused, structured mentoring program to help you build your business, along with a menu of educational and development tools to enhance the training of top executives and leaders in your company. In addition to tangible products, services and networking opportunities, you will benefit from increasing your company's exposure in the BSC and security community and demonstrating its commitment to enhancing the profession.

Professional Education Program

Building Service Contractors Association International (BSCAI) represents a worldwide network of more than 2,000 companies who provide cleaning, facility maintenance, security and other related services to building owners and managers. There is no better network of BSCs in which you can share best business practices, engage in endless networking opportunities and have exceptional products, publications and other industry services available at your disposal.

The **Professional Education Program** presents a unique mentoring opportunity where you will be matched with a successful corporate executive who will provide expert guidance on how to take your professionalism and company to the next level.

BSCAI's Professional Education Program guarantees you will:

- Acquire the knowledge needed to grow your business and develop professional skills to help you succeed
- Improve the training programs of top executives and leaders in your company
- Accomplish all of your professional and industry educational goals
- Further demonstrate your commitment to enhancing your profession in the BSC industry
