WHO'S ON YOUR PAYROLL?

Implement a BSCAI approved screening program today. Don't put an untrustworthy employee in a position to threaten your company's financial future. An unscreened employee who causes a problem which background investigation could have prevented creates doubt in the mind of your client. In the worst scenario, your company could be forced to defend itself in the ever growing number of negligent hiring lawsuits.

Datasource's BSCAI approved program will:

- Increase bottom line profits by reducing employee turnover
- Bullet proof your organization against negligent hiring or negligent retention lawsuits
- Provide industry specific "best practices" regarding screening.
- Decrease the workload in your HR Department.

BSCAI members receive these advantages through Datasource:

- Preferred pricing for BSCAI members
- Work with a vendor who understands the specific needs of the industry
- Dedicated customer support for BSCAI Members
- No set up fees or contracts
- Priority service
- Unlimited training and support for members
