ALIGNING GP PRO SOLUTIONS WITH OSHA GUIDANCE

March 31, 2020

ACTIONABLE HYGIENE CHECKLIST

To assist you in assuring safe and healthful workplaces for all employees, this Actionable Hygiene Checklist aligns GP PRO solutions to OSHA guidance specific to COVID-19.

Implementations		Action
Basic Infection Prevention Measures		<p>“Promote frequent and thorough hand washing, including by providing workers, customers, and worksite visitors with a place to wash their hands. If soap and running water are not immediately available, provide alcohol-based hand rubs containing at least 60% alcohol.”</p>
		<p>“Provide customers and the public with tissues and trash receptacles.”</p>
		<p>“Maintain regular housekeeping practices, including routine cleaning and disinfecting of surfaces, equipment, and other elements of the work environment.”</p>
Engineered Workplace Controls		<p>“Installing physical barriers, such as clear plastic sneeze guards”.</p>
Safe Workplace Practices		<p>“Providing resources and a work environment that promotes personal hygiene. For example, provide tissues, no-touch trash cans, hand soap, alcohol-based hand rubs containing at least 60 percent alcohol, disinfectants, and disposable towels for workers to clean their work surfaces.”</p>
		<p>“Requiring regular hand washing or using of alcohol-based hand rubs. Workers should always wash hands when they are visibly soiled and after removing any PPE.”</p>
		<p>“Post handwashing signs in restrooms”</p>

INDUSTRIAL SEGMENT

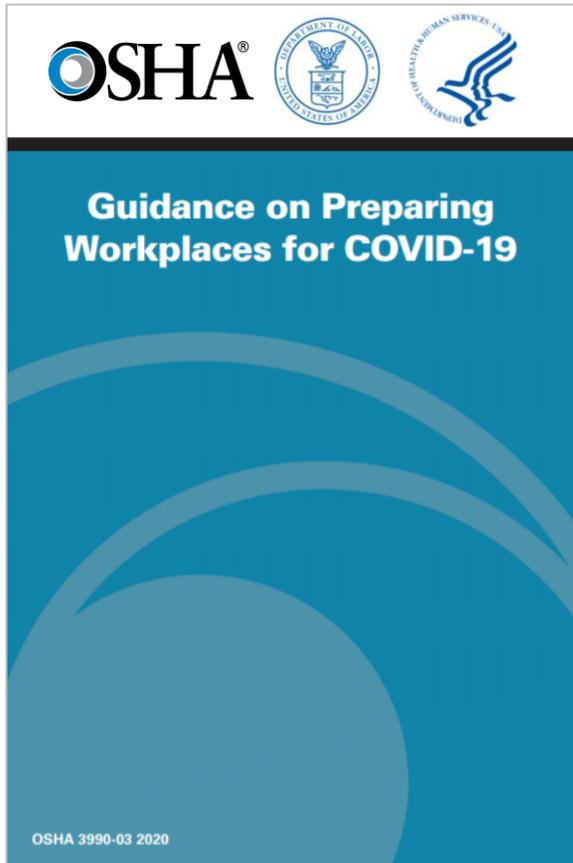

MEETING OBJECTIVE & BACKGROUND

- Industrial facilities will be looking to their “**preferred partners**” to assist their go forward efforts to enhance the hygiene readiness in their operations.
- We will let the **CDC, OSHA**, and a few other sources guide our recommendations.
- GP PRO hygienic solutions are **critical components** to this effort.
 - ✓ Towel
 - ✓ Tissue
 - ✓ Sanitizer
 - ✓ Soap
 - ✓ Wipers
 - ✓ Foodservice disposables
- GP PRO is **ready and able** to assist your efforts to keep your industrial facilities up and running!

ACTIONABLE HYGIENE CHECKLIST

To assist you in assuring safe and healthful workplaces for all employees, this Actionable Hygiene Checklist aligns GP PRO solutions to OSHA guidance specific to COVID-19.

Implementations		Action
Basic Infection Prevention Measures		“Promote frequent and thorough hand washing, including by providing workers, customers, and worksite visitors with a place to wash their hands. If soap and running water are not immediately available, provide alcohol-based hand rubs containing at least 60% alcohol.”
		“Provide customers and the public with tissues and trash receptacles. ”
		“Maintain regular housekeeping practices, including routine cleaning and disinfecting of surfaces , equipment, and other elements of the work environment.”
Engineered Workplace Controls		“Installing physical barriers , such as clear plastic sneeze guards”.
Safe Workplace Practices		“Providing resources and a work environment that promotes personal hygiene. For example, provide tissues, no-touch trash cans, hand soap , alcohol-based hand rubs containing at least 60 percent alcohol, disinfectants, and disposable towels for workers to clean their work surfaces.”
		“Requiring regular hand washing or using of alcohol-based hand rubs. Workers should always wash hands when they are visibly soiled and after removing any PPE.”
		“ Post handwashing signs in restrooms ”

ADDITIONAL GP PRO RECOMMENDATIONS FOR INDUSTRIAL WORKPLACE ENVIRONMENTS

- **Hand washing and drying** need to be a high priority – 20 seconds
- Increase availability of **hand sanitizing stations** on the plant floor
- **Touch-free**, Higher capacity systems should be considered to ensure workers have sufficient hygiene products available as **hand hygiene** frequencies increase
- Reducing potential for cross contamination by reducing touch points should be considered through-out a facility - consider **touch-free equipment**
- Frequently disinfect workspaces using **disposable towels or wipers**
- Providing **heavy duty grit soap** or **pre-moistened hand towels** to help remove visible soils from hands prior to using alcohol hand rubs or soap and water
- "Discourage workers from using other workers' tools and equipment" - **disposable wipers** could help achieve this goal.
