

# COVID-19 RESPONSE

## HELPING YOU ACHIEVE YOUR FACILITY CLEANING AND RE-ENTRY GOALS

Facilities are facing extraordinary challenges. The Sunbelt Rentals team is at the ready with the proper equipment, expert personnel, and accessibility to act in a moment's notice, nationwide.

### FLOOR MACHINES & BURNISHERS

Scrub, polish, and strip almost any flooring including uneven surfaces. Floor Machines run at 175 revolutions per minute. High-speed buffers can run from 1,250 to as high as 1,500 revolutions per minute. While Floor Burnishers provide extra power and speed for performing large commercial cleaning and polishing applications.

### FLOOR SCRUBBERS

Walk-behind scrubbers feature compact designs to easily reach tight and confined spaces in a variety of applications. Excellent down pressure and optimal water recovery leave floors clean, dry and safe. Sunbelt Rentals Flooring Solutions offers the ec-H2O option on all walk-behind and ride-on scrubbers.

Ride-on scrubbers deliver maximized floor cleaning capacity at rates up to 70,000 sq. ft. per hour. They utilize dual polypropylene cylindrical brushes for aggressive scrubbing, with variable down pressure to match floor conditions.

### FLOOR SWEEPERS

Walk-behind sweepers are ideal for picking up debris in indoor and outdoor applications. They deliver efficient cleaning results at rates up to 34,000 sq. ft. per hour and variable forward and reverse motions for excellent maneuverability.

Ride-on sweepers are ideal for high production sweeping of indoor and outdoor surfaces. They offer excellent dust control, continuous uptime and powerful sweeping performance for efficient cleaning rates up to 150,000 sq. ft. per hour.

### MULTI-USE MACHINES

Sunbelt Rentals offers a variety of multi-use cleaners for hard floors, grout cleaners and soft floors with multiple different attachments, as well as multiple orbital cleaners. A full variety of cleaners are available to efficiently and effectively clean most surfaces.

### ELECTROSTATIC SPRAYERS

A powerful, efficient and cost-effective electrostatic sprayer for disinfection treatment. The electrostatic sprayer features a patented application system, which places an electrostatic charge to liquid disinfectants as they leave the spray nozzle.

### VACUUMS & EXTRACTORS

The sooner you collect soils from the surface, the easier it is to remove them. Sunbelt Rentals offers a variety of vacuum cleaners including upright and backpack vacuums, wide area vacuums, wet-dry vacuums and HEPA rated vacuums. A proper soft surface program includes vacuuming to remove soil, followed by using a carpet extractor to provide quick, efficient cleaning of carpeted areas, upholstery and fabric covered surfaces. Utilizing solution sprayers, scrub brushes and powerful wet vacuums to achieve fast, professional results with 115V operation.

### TOUCHLESS CLEANING SYSTEM

The Touchless Cleaning System combines an indoor pressure washer, chemical injection and wet vacuum technologies all into one package. This unit removes germs and other contaminants which traditional cleaning tools leave behind.

### AIR QUALITY/PURIFICATION

Whether you need an air scrubber to remove harmful particulates from the air, or you need to create a negative pressure in your work space, we have the right equipment to get the job done.
